

*Achievement in Safety by an Organization: Utah Department of Transportation- IMT Division*

## MEMBERSHIP MINUTE

Brandee Crockett, Vice President of Operations

Thank you to all that attended the Membership Appreciation Event on September 30th at Cross E Ranch. It was a fun night filled with good food and great activities for families and friends. It was wonderful to see our member companies and their families.

Photos are available for download!

## Annual Safety Awards Recap

by John Wojciechowski, President

The 2022 **Utah Safety Council Annual Meeting and Awards Presentation** was back live and in-person!

We hosted a full house of over 250 safety professionals and guests at the University of Utah Rice-Eccles stadium as we honored the safety accomplishments of Utah and its safety leaders in all industries.

We were honored to have the **Utah Highway Patrol Honor Guard** open the meeting by presenting the US flag and Utah state flag for the opening flag ceremony.

We are very grateful to the **Utah Labor Commission** for their support and sponsorship of the Annual Meeting and Awards Presentation.

In his final duty as a board of director, Chairman of the Board of Directors, **Doug Martin**, presided over the meeting and presented the board business.

In total, we presented 118 awards in 12 categories. With a very competitive nomination process, the winners are selected by the Utah Safety Council board of directors based on the strictest of standards.

Congratulations to all award recipients and thank you for your commitments to safety – job well done!

## Lifetime Achievement Award

by John Wojciechowski, President

2022 is the first year the Utah Safety Council has awarded the Lifetime Achievement Award. The award has been discussed and the criteria debated for several years, but the USC board of directors have it all worked out and are excited to now have the lifetime award as part of the council's annual meeting agenda.

The Lifetime Achievement Award honors individuals with a minimum of 10 years of documented accomplishments in a safety-related field who have had a significant impact on various individuals and organizations. Any individual with more than 10 years of service will be given additional consideration during the selection process.

The recipient of the inaugural Lifetime Achievement award is **Bradley Paterson**, Director, Quality, Safety & Environmental at Swire Coca-Cola. Bradley was nominated by two of his peers: **Peter Mills**, Executive Director, SVP Supply Chain at Swire Coca-Cola and **Suyanka Neupaney**, Data and Safety Manager from the Utah Department of Transportation.

Brad has over 35 years' experience leading diverse and high performing teams, coupled with over 25 years as a safety and environmental professional. His motto, **'safety is all about engagement and engagement is all about people'** has spread well across the global Coca-Cola system.

Brad has developed a robust safety management system for Swire Coca-Cola that includes a learning management system to ensure all employees have access to relevant training materials.

Recently, Brad led the development of an integrated communication program focused on the message **'Zero is Possible.'**

Understanding that injuries from manual material handling is the primary form of accidents and injuries, Brad introduced the Pristine Condition program: **Push not Pull, dip and drive, turn not twist, use your big engines.**

Congratulations, Bradley Paterson — the first recipient of the Lifetime Achievement award.

# Harold R Everitt Life Saver Award

by Brandon Stone, Emergency Care Program Manager

Many awards were presented to deserving Member Companies for their outstanding Safety Performance, but one award that was presented was given to two individuals from the community who stepped forward to save another. **The Harold R Everitt Life Saver Award** is named in recognition of the contributions to the Utah Safety Council as well as the impact its namesake had on the community through his years of service with various organizations.

The first recipient was **Jay Keller**. Jay is a regular member of the community, not a first responder or medical professional. But that has not stopped him from stepping forward multiple times to help someone. He gave First Aid care to a passer-by that became ill and stayed with them until EMS arrived. He provided care to a co-worker suffering a seizure ensuring they stayed safe and caring for them until they were alert again. But what won Jay the Life Saver Award was his actions one evening in a Salt Lake City restaurant. While dining another patron began to choke and Jay did not hesitate to step in and perform abdominal thrust successfully clearing the blockage.

Our second Life Saver Award winner was **Danya Topham**. Danya is a registered nurse having served the community for 12 years. One evening while watching a community softball game she heard someone yell out “someone call 911”. Danya did not hesitate to begin care for a man suffering sudden cardiac arrest. She provided high quality CPR and directed the efforts of others until relieved by EMS. Thanks to her quick action and the excellent care that she rendered the man survived. Her actions garnered local media attention and she was quoted a couple times.

“People really just need to learn how to do CPR. Just do it and you can save a life. I did.” The difference that high quality CPR can make is huge. A person’s chances of survival decrease by 10% per minute until someone begins CPR.

“Completely different situation out there in real life.” Despite being a medical professional, the courage it took to act out of her element, without any of the tools and support she is used to having is admirable. The presence of mind to direct others in that stressful situation while providing great care is impressive.

The actions of our two Life Saver Awards are truly amazing and set a great example for all of us to learn the skills that could save a life, and then to have the courage to step forward and act.

# Award of Honor

by John Wojciechowski, President

**Delta Fire Systems** was presented with the 2022 **Award of Honor!** Every company who applies for the Award of Merit is considered for this award. The Award of Honor is the highest recognition for a company’s commitment to workplace safety.

Delta Fire was formed in 1963 by fire protection engineers William A. Pickett and Nels C. Sparr. The duo wanted to build a professional organization they could be personally proud of. Delta Fire has grown to be one of the largest and most respected fire protection contractors in the intermountain area.

Headquartered in SLC, Delta Fire has a total of eight office locations to serve a huge part of the intermountain area including the Salt Lake Valley, Southern Utah, Reno, Northwest Nevada, and all Southern Idaho.

At Delta Fire Systems, they truly believe their employees are their biggest assets. They strive to provide a safe and healthy work environment. They want their people to go home after a day’s work better off than when they came in. To do this, they make safety a major priority.

Delta Fire has an amazing safety record with an experience modification rate of .59 with their industry average being at 1.0. This means their safety record and potential for future incidents is nearly 40% lower than their peers in the industry.

Delta Fire has received the Award of Merit from the Utah Safety Council every year since 2006 (16 years!). Congratulations to Delta Fire!

**SAVE THE DATE**

**2023** Utah Safety Conference & Expo

March 16-17, 2023

Rice Eccles Stadium Field Club  
Salt Lake City

Check back at [UTAHSAFETYCOUNCIL.ORG](http://UTAHSAFETYCOUNCIL.ORG)  
for more details coming soon!

## Keynote Speaker: Shawn Newell

by John Wojciechowski, President

We were honored and privileged to hear from **Shawn Newell** as the keynote speaker at the annual meeting. Shawn drew from his life experiences and shared with us his strategies for leadership, courage and resilience.

Shawn is the retired Vice President of Business Development at Industrial Supply Company where he worked for 37 years. Shawn is a graduate of the University of Utah, Salt Lake Community College and has a Master of Management degree from the University of Phoenix. He also holds an Honorary Doctorate degree from the University of Utah School of Business and earned a Diversity and Inclusion certificate from Cornell University.

In Shawn's spare time he officiates youth sports and BBQs great grub! Shawn is married, the father of three, has six grandchildren, wears size 15 shoes and played football at the University of Utah.

## Individual Achievement in Safety Award

by Brandee Crockett, Vice President of Operations

**The Robert F. Parenti Individual Achievement in Safety Award** is given each year to recognize dedication and personal motivation for safety in the workplace. The award is named after Robert Parenti, who spent 28 years as the president of the Utah Safety Council. Under his leadership, training programs were developed, membership grew, and the Utah Safety Council became the leader in safety training.

The 2022 recipient of **Individual Achievement in Safety Award** was given to **Sara Rush-Mabry**, Safety and Health Manager at Park City Municipal Corporation.

Park City Municipal Corporation's Health & Safety Plan calls for the Safety Committee to conduct workplace safety walk-throughs on a periodic basis. Since the program's formal inception in 2017, the City has relied on a comprehensive 18-page printed checklist applicable to all departments and functions. The 18-page paper document format complicated communicating requirements and findings.

Recognizing a need to streamline the City's workplace safety walk-through process, Sara, acting on her own initiative, developed an electronic form that allowed inspectors to scan a code linking their smartphone or tablet to a specific section of the comprehensive checklist for onsite use when conducting workplace safety walk-throughs. Participating parties can view the checklist status items near-real-time, as well as refer to finalized documents.

This new electronic capability has made safety walk-throughs in City departments more efficient in terms of time spent in preparing, conducting, communicating results, and documenting safety walk-through results.

Congratulations to Sara!

# Recognizing Safety on the Roads

by Mike Stone, Traffic Safety Program Manager

This is the 38th year that we at the Utah Safety Council got to recognize individuals who are dedicated to setting an example for all professional drivers when it comes to driving safely on the roads. We recognized two different award categories, one for metro transportation and one for the long-haul category.

For the **metro transportation** category, we got to honor **Polo Lagaia**. Polo works for Ace Intermountain Recycling Center and was nominated by his operations manager, Richard Jensen. Polo and his family were the liveliest members of the audience that night, practically shaking the building with their intense cheers and admiration for the great achievement that Polo had accomplished. Polo was able to drive a safe 2,000,000 miles on the road which won him the award. Polo sets himself apart from everyone around him, demonstrating leadership skills, being an educator and finally holding himself to a high standard of safety to ensure everyone around him is safe on the roads.

The **long-haul category** came after that, with our winner this year being **Dan Sorensen**. Dan works for Barney Trucking and was nominated by his safety manager, Craig Payne. Dan, also known as “happy Dan,” has infectious enthusiasm, which is the how he earned that C.B. handle. Dan is also enthusiastic about safety, and teaching everyone around him how to stay safe on the roads. Dan also participates in the Truck Smart program, where he gives driver education by showing people what a professional truck driver sees when they are behind the wheel, to help prevent collisions on the road. Dan also demonstrates this knowledge behind the wheel, with well over 2,000,000 safe driving miles.

Both of our winners demonstrate safety techniques and skills that set a great example for many of that we should strive for on the roads.

The next award I had the opportunity to present was the Achievement in Safety by an Organization. This award is meant to recognize organizations who have made great contributions to the mission of the Utah Safety Council and excellence in promoting safety in the workplace. This year we got to recognize the Utah Department of Transportation Incident Management Team Division.

The Incident Management Team (IMT) are the heroes on the road, with one goal in mind, to keep Utah moving. The IMT keep traffic flowing and people safe in the event of an accident, car troubles, running out of gas, or any manner of road issues. They do this by using their knowledge and skills to assist people who need help. The IMT recognizes that being a civilian on the freeway is one of the most dangerous situations someone can put themselves in. Therefore, they provide vital traffic control to make sure any car troubles can be dealt with in a safe and secure manner.

# Women in Safety and Health (WISH) Award

by Brandee Crockett, Vice President of Operations

The **Women in Safety and Health (WISH) Award** is given every December at the end-of-year Women in Safety Event, and the recipient is also honored during the Utah Safety Council’s Annual Meeting and Awards. The Women in Safety group was created by the Utah Safety Council for professional women within safety and health industries.

We had five deserving nominations, and each of those candidates were well-qualified but the winner of the 2021 WISH Award was **Michele McDermaid from Wheeler Machinery**.

Michele has worked for Campbell Companies for 22 years. For 16 of those 22 years, she has worked tirelessly in the safety department. She manages several hundred DOT drivers, conducts training that she has developed, audits, coaches, and mentors’ drivers. Through her leadership and expertise, their FMCSA scores are 83% below the national average. They now drive millions of miles every year without a major incident.

Michele is passionate about people. She has taken the lead and single handedly developed safety videos that are watched every day by over 1000 employees.

Michele’s dedication for safety extends further, she also takes part in and conducts emergency preparedness in the workplace meetings-including training on natural disasters and active shooter. Wheeler Machinery Company and The Campbell Companies family are a safer place to work because of her endless passion and energy to enable employees to return home safely every day. Thank you to Michele for her dedication to safety in the workplace.

Women in Safety / Utah Safety Council Presents

## Featured Speaker at the WISH Award Luncheon

December 16, 2022 | 11am-1pm

# Congratulations to our Safety Award Winners

## Perfect Record Award

The Perfect Record Award recognizes companies who worked the entire 2021 calendar year without an OSHA recordable injury, illness, or days away from work.

Congratulations to our 2022 Perfect Record Award winners:

- AEEC, LC
- American Water
- Barclay Mechanical
- Barr Engineering Co. – Salt Lake City Office
- Bodec Inc
- Bodell Construction
- Burdick Materials, A CRH Company Central Valley Water Reclamation Facility Cleasby
- Conveyors
- Comfort Systems USA Intermountain
- E-Corp
- Enaex USA (E-nax)
- Energy Fuels Resources – White Mesa Mill
- Epcon Partners
- Gramoll Construction
- Harder Mechanical Contractors (CON-tractors)
- HF Sinclair
- Kaltech, LLC
- Kern River Gas Transmission
- Komatsu
- Millcreek Engineering Company
- Mountain Regional Equipment Solutions
- Mountain States Fence Company
- North American Industrial Services
- Nucor Harris Rebar Salt Lake Inc.
- Parker Hannifin Commercial Flight Controls Division – Ogden R&O Construction
- Rocky Mountain Specialty Contracting (RMSC) (CON-tracting) Savage Services – American Fork
- Savage Services – Bingham and Garfield
- Savage Services – Service Support Center
- Savage Services – Star Point
- Savage Services – Tooele Transload
- Sentinel Integrity Solutions
- SINTX Technologies
- Skyline Electric Company
- Snyderville Basin Water Reclamation District
- WW Clyde and Co.
- Younique

*(more awards continued on next page)*

**Million Hours Award**

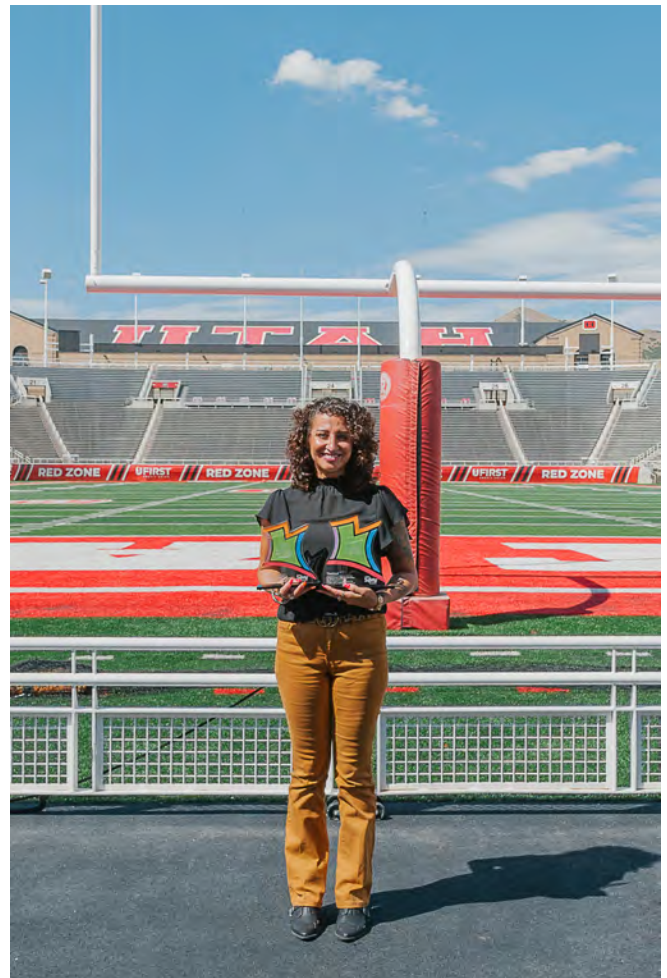

The Million Hours Award recognizes companies who reach at least one million consecutive employee-hours during the 2021 calendar year without incurring an OSHA recordable injury or illness, days away from work, or death. At this year’s Annual Meeting, we recognized Parker Hannifin Commercial Flight Controls Division – Ogden for celebrating over three million hours worked without an OSHA recordable. We also celebrated Sentinel Integrity Solutions for achieving over seven million hours worked without an OSHA recordable. Four other companies received this prestigious award, including: Barr Engineering Company, Hunter Douglas Salt Lake City, North American Industrial Services, and Teva Pharmaceuticals Salt Lake City Operations. Congratulations to our 2022 Million Hours Award winners.

**Award of Merit**

At the 2022 Annual Meeting, 63 organizations received the Award of Merit which recognizes quality safety performance. These companies are below the national average for their industries over a three-year period in lost time and total case incidence rates.

Congratulations to our 2022 Award of Merit winners:

- AEEC, LC
- American Water
- Ames Construction
- Asahi Refining USA, Inc
- Barr Engineering Co. – Salt Lake City
- Bodell Construction
- Brigham Young University
- Cache Valley Electric Company
- Intermountain Healthcare, Cedar City Hospital
- Central Valley Water Reclamation Facility
- Comfort Systems USA Intermountain
- Daw Construction Group, LLC
- E-Corp
- Enaex USA
- Intermountain Health Care, Fillmore Community Hospital
- Granite Construction
- Great Basin Industrial
- Harder Mechanical Contractors
- HF Sinclair
- Hunt Electric, Inc.
- Hunter Douglas - Salt Lake City
- Jack B. Parson, A CRH Company
- Jordan Valley Water Conservancy District
- Kern River Gas Transmission
- Kroger - Layton Dairy
- L3Harris
- Layton Construction Company
- Intermountain Health Care, McKay Dee Hospital Mechanical Service & Systems
- Millcreek Engineering Company
- Mountain Regional Equipment Solutions
- Mountain States Fence Company
- Neilson Construction, A CRH Company
- North American Industrial Services

*Sarah Galvez from Younique; Recipient of the Award of Merit*

*(more awards continued on next page)*

Congratulations to our 2022 Award of Merit winners (continued):

- Northrop Grumman - Mission Systems
- Northrop Grumman-Propulsion Systems
- Nucor Harris Rebar Salt Lake Inc.
- O.C. Tanner
- Intermountain Health Care, Park City Hospital
- Parker Hannifin Commercial Flight Controls Division – Ogden R&O Construction
- Ralph L. Wadsworth Construction
- Reynolds Excavation, A CRH Company
- Rocky Mountain Specialty Contracting (RMSC)
- Savage Services – Bingham and Garfield
- Savage Services – Coal Service
- Savage Services – Roosevelt
- Savage Services – Service Support Center
- Savage Services – Star Point
- Sentinel Integrity Solutions
- Skyline Electric Company
- Smithfield
- Smithfield Hog Production – Milford, Utah
- Intermountain Health Care, St George Regional Hospital Staker
- Parson Materials & Construction, A CRH Company Teva
- Pharmaceuticals Salt Lake City Operations
- Thermo Fisher Scientific-Logan
- Treehouse Foods, Ogden Utah Plant
- Intermountain Health Care, Utah Valley Hospital
- Vesta Industrial Contractors
- Wasatch Electric
- WesTech Engineering, LLC
- Western Rock Products, A CRH Company
- Whitaker Construction Co. Inc
- WW Clyde and Co.
- Younique

# New Staff Bios

**Justin Ward, Program Administrator**

Justin comes to the Utah Safety Council with a background in transportation and insurance. He began working in the trucking industry as a transportation broker and dispatcher moving freight across both the United States and Canada. From there he began working with the airlines as a parts purchasing manager and mechanic assistant for Corporate Air and later as a CSR with Alaska and Horizon airlines. After moving to Utah from Montana in 2019, he began working as an insurance administrator specializing in fund transfers and eventually accounting.

Along with a love of aviation and transportation, Justin also has a passion for music. He studied classical piano in San Francisco and has trained in both pipe organ performance and vocal performance in the northwest. He enjoys using his talents as a principal tenor for opera productions and performing recitals. Justin also enjoys painting, reading, and spending time outdoors. He is excited to begin his journey with the Utah Safety Council and offer his talents and skills to help our members!

**Nicole Ackman, Program Administrator**

Nicole Ackman is one of our new Program Administrators here at Utah Safety Council. Both her and Justin will be facilitating our computer lab and as well as working in the front office.

For the last 12 years she has been working at a local charter school in her community where safety is the number one priority. Even though she is new to the safety community she is eager to learn and jump in feet first. When she is not working, she enjoys glamping and spending time with family and friends.

**Robert Garcia, Accounting Clerk**

Robert Garcia is our new Accountant Clerk from Colombia. He joined our team in September 2022. Robert graduated from Ensign College in 2018 with an AAS in Financial and Managerial Accounting and has worked in the non-profit industry since.

Robert is an avid food fan and loves to cook. In his free time, he likes to learn new recipes and cooking styles. He also enjoys playing sports and traveling with his family. His inspiration for all he does is his Wife and two boys.
